SUMMARY

Technically proficient C# Developer with a Diploma in Information Technology in Software Development from The IIE Rosebank College, and a solid foundation in full-stack development. Skilled in designing and implementing scalable web and Android applications, with experience in C#, MySQL, PL/SQL, Kotlin, and JavaScript. Known for enhancing user experience and efficiency in projects by applying strong problem-solving skills, creativity, and effective communication. Dedicated to delivering practical and impactful software solutions.

PROJECTS

Event Ticketing Website
Front-End Developer
HTML, C#, CSS, JavaScript

Collaborated in a team of five to develop a website for event ticketing, designed to allow users to browse, purchase, and manage event tickets seamlessly.

Focused on front-end development, creating a user-friendly interface that enhanced user experience and resulted in a 25% increase in user engagement.

Event Ticketing Android Application
Back-End Developer
Kotlin, Firebase

Collaborated in a team of five to develop an Android application for event ticketing, enabling users to purchase and manage event tickets seamlessly.

Focused on back-end development, implementing secure payment processing, user authentication, and database management, which improved transaction security by 30%.

Disaster Alleviation Foundation Website
Web Developer
C#, HTML, CSS, JavaScript

Developed a website for a non-profit organization focused on disaster relief, providing information, resources, and donation options to the public.

Created a responsive design, implemented a secure donation system, and ensured the website was accessible and easy to navigate, increasing online donations by 20%.
